PROFESSIONAL SUMMARY

I am a motivated Computer Science student with hands-on experience in web development, mobile applications, and AI automation. While currently building my career through projects and internships, I have developed a strong foundation in both front-end and back-end technologies. I am passionate about creating practical solutions, including AI workflows and automation systems, and continuously improving my technical and problem-solving skills.

TECHNICAL SKILLS

Web Development (MERN Stack):

- Experience with MongoDB, Express.js, React.js, and Node.js
- Building responsive and scalable web applications

Front-End Development:

- HTML, CSS, JavaScript, Bootstrap
- Responsive Design and UI development

Mobile App Development:

- React Native (basic to intermediate level)

AI & Automation:

- Building workflows and AI agents using n8n
- Experience with API integrations (Tavily, Google Gemini, Twilio)
- Basic understanding of RAG (Retrieval-Augmented Generation) systems

Back-End & Database:

- MySQL (CRUD operations, basic queries)

Tools & Technologies:

- Git & GitHub (version control)
-

- Postman (API testing)

EDUCATION

BS Computer Science

Gift University, Gujranwala, Pakistan

2023 – Present

FSc Pre-Engineering

Punjab College

2021 – 2022

PROJECTS

Hospital Management System

- Built using HTML, CSS, JavaScript, PHP, and MySQL
- Implemented patient records and basic management features

Supermarket Billing System (DSA)

- Developed using Data Structures concepts
- Focused on efficient billing and data handling

Network Configuration (CISCO)

- Designed and configured basic network setups

AI Content Automation Workflow (n8n)

- Built an automated system for content generation
- Integrated Tavily API for research, Google Gemini for AI content
- Automated output storage in Google Sheets
- Implemented WhatsApp notifications using Twilio API

Music Player Web App (React.js)

- Developed a responsive music player using React.js
- Integrated backend APIs for fetching and streaming music data
- Implemented features like play, pause, next/previous, and dynamic UI

Mobile Application (React Native + Firebase)

- Built a cross-platform mobile application using React Native
- Integrated Firebase for authentication and real-time database
